## Top 10 things

## kids should know about Les Paul

- 1. Les was both a famous musician and an inventor. He played music and invented ways to make the sounds that he imagined.
- 2. He was curious. He wanted to know how things worked and that led him to invent many things.
- 3. Les used things he found in his house and neighborhood for many of his experiments.
- 4. When Les couldn't find something he wanted he invented it, even when it took many tries.
- 5. He was persistent. When something didn't work or when he experienced a health problem, he looked for another way to do what he wanted to do. Quitting was not an option.
- 6. Early in his career Les realized that to be a successful musician he needed to play the music his audience wanted to hear.
- 7. Les asked questions. Even as an adult, he didn't hesitate to ask about things he wanted to learn.

- 8. Les Paul is the father of the solid-body electric guitar.
- 9. Les Paul invented the 8-track tape machine, which made it possible for musicians to record multiple versions of themselves.
- Every day musicians use Les' many recording techniques, such as sound on sound, reverb and echo.
